

Friends of Glebe Wetlands
invite you to join in the

Glebe Wetlands BioBlitz

18th/19th/20th November 2022

– Glebe Park, Bega –

Come join in this three-day citizen science event as we conduct surveys of the extensive biodiversity at the Glebe Wetlands including fauna and flora.

The wide range of wildlife to be surveyed will include mammals (Grey-headed flying-fox), birds, frogs, insects and invertebrates.

Surveys will be led by qualified and experienced scientists and naturalists with expertise to guide you in collecting data that will be useful in supporting the conservation and management of this important local biodiversity hotspot. All activities are free.

For more information: Contact Hugh Pitty on 0414 525 761
